Micheal Houghton

I always try to target the best exchange rate each month and reserve that for my transfer and Moneycorp makes that very easy for me to do.

The Clarkes

I would definitely recommend Moneycorp's services, the whole process was easy, everyone I dealt with was extremely helpful, friendly and professional.

The Kents

My wife and I thoroughly enjoy living in two properties overseas, one in Florida, and the other in the Algarve, Portugal. Moneycorp was far better than using a bank, absolutely hassle-free. I was very happy with the process of the deal and all staff was friendly and efficient.

All I can say is that I was very pleased.

Securing today's rates to manage tomorrow's risks

Need to send money straight away? Simply agree on an exchange rate and we'll take care of the rest. This is called a Spot Contract.

If your payment isn't for today, there are other FX products that will help you make the most of fast-moving currency markets, while effectively managing your risk.

Forward contract

Foreign exchange markets are unpredictable which is why timing is crucial when it comes to securing the most competitive exchange rate. A Forward Contract allows you to buy or sell currency on a future date at an agreed-upon price, sheltering you against potential exchange rate movements and giving you much more value for your money.

You can lock in a rate for up to two years, giving you certainty over future payments and manage any risk associated with exchange rate volatility.

Forward contracts may require a deposit. Beware of currency risk.

Specialist tools to drive more value

Access bespoke tools for hassle-free international payments.

Market orders

Choose a rate you would like to target and we will do the hard work for you with a Market Order. If the market reaches your desired rate, we will exchange your currency when your target rate is achieved for a seamless experience across time zones and borders.

Track a rate

No need to constantly check moving currency markets. Receive an alert via email or SMS when a currency reaches your chosen rate.
